## NOTICE

As you all are aware, practical exposure of students through various activities like projects, internships, industrial visits, workshops, etc. has been widely promoted by MHRD to improve the employability and quality of technical education and research in India. Secretary (TE), MHRD has instructed to incorporate industry visits as a part of regular TEQIP activities. These visits would not only enhance the learning acquired in classrooms and laboratories but also increase the internship and placement opportunities for the students.

Industrial visits have been mentioned in the model curriculum of AICTE also. For this, the concerned HoDs of engineering departments are instructed hereby to arrange industrial visits for the students of II, III, & IV year. Kindly also ensure that the outcomes of such visits are achieved by assessing the learning of students through various methods like presentations, reports, quizzes, surveys, etc.

The HoDs are also requested to properly document these activities (including photographs, reports, scans of official communications, etc.) as these will help in accreditation and other target monitoring by MHRD. The expenditure incurred may be booked under TEQIP-III by following the relevant guidelines in this regard.
